# SMOKY MOUNTAIN MASS TRANSIT & TROLLEY ROUTES

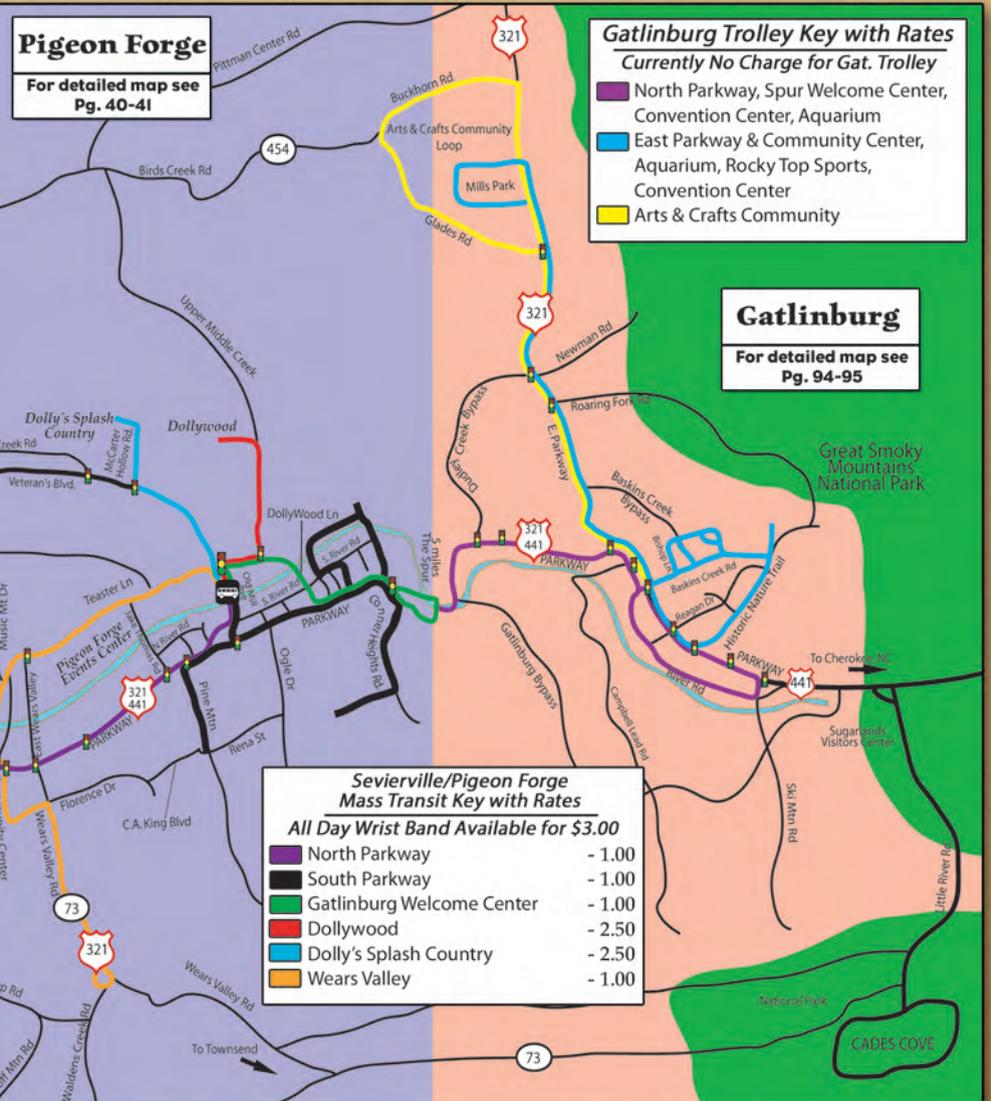

Welcome to the Great Smoky Mountains. This region is made up of three cities, Sevierville, Pigeon Forge and Gatlinburg, each offering a variety of dining, entertainment and shopping options. To assist in finding what you are looking for, we have divided our magazine into four different sections. Each city has its own section with detailed maps and business logo's to help locate their locations for easy

reference, as well as a featured article highlighting events and new experiences to enjoy. The Great Smoky Mountains National Park section offers hiking trails and recreational information, along with articles on popular destinations.

Below you will find a map of the entire area with trolley routes included. We have color coded each city for easy reference throughout the magazine. Just follow the color on the map to the corresponding tabs on the following pages to find everything there is to see and do in that particular area. We hope that this helps you to navigate the Great Smoky Mountains. The Sevierville/Pigeon Forge Mass Transit runs daily 8:30 - midnight from early March through October and 10:00 am - 10:00 pm in November and December. Gatlinburg trolley runs daily as follows: Nov. - Feb. 10:30 am - 6:00 pm, March - April 10:30 am - 10 pm, May - October 8:30 am - 12 am.

gifts for all those

# The Polar Express, Christmas Shows, & New Year's FUN!

# What's Happening In PIGEON FORGE?

Winter in the smokies is a magical time. The mountains are aglow with Winterfest light displays, the theaters along the parkway are presenting unrivaled Christmas performances, and special events bring holiday cheer around every corner.

Recently **Beyond the Lens** just wrapped up a \$12 million expansion to their already impressive attraction. Located directly on the Parkway, **Beyond the Lens** is now home to Pigeon Forge's newest attraction, **FlyRide**. This amazing sensory experience gives you the immersive feeling of flight as you soar over 22 national landmarks! Taking over five years to construct, **FlyRide** features a curved screen that is more than four stories high and features the latest projection technology that creates a 60-foot-wide immersive image. Experience mist, wind, scents, and motion as you soar through breathtaking vistas. The amazing film that is played throughout the year was produced by the leader in IMAX films! But, during the winter season, the **FlyRide** is featuring a special production for **The Polar Express: Journey to the North Pole**. **Polar Express** became a fast favorite holiday tradition and **Beyond the Lens** is the only place in the world that you can experience this one-of-a-kind fully immersive experience. Ride alongside the story's main characters, as you take a thrill ride to the North Pole. Feel every dip, turn and slide of the runaway trains as you and your family travel WAY north aboard the **Polar Express!**

The Smokies have long been synonymous with amazing entertainment and music, found at theaters throughout the area. During Christmas these theaters present award-winning productions that are sure to get even the grinchiest of grinchies into the holiday spirit. Running through the end of the year, you can choose from shows which include amazing musical talents at **The Christmas Show at Country Tonite Theatre**, **The Christmas Disaster Dinner Feud at Hatfield and McCoy**, a Stampede of Christmas fun at **Dolly Parton's Stampede**, Lumberjack's clashing in Holiday competition at **Paula Deen's Lumberjack Feud** and knee slapping humor at **The Comedy Barn Christmas**. Regardless which show you choose; you are sure to be entertained and to leave with newfound Christmas magic!

Rounding out the year, and finishing on a very high note, is the **New Year's Eve Celebration** at the **Island in Pigeon Forge**. On Saturday Dec. 31, come on down to the Island and countdown to 2023 with their dazzling Show Fountain and midnight fireworks display. Ring in the New Year with memories that will last a lifetime at the Islands unparalleled presentation of music, fun, food and explosions. It is a can't miss **New Year's Eve** party and you are all invited.

## What's Happening In **GATLINBURG?**

Gatlinburg transforms into a winter wonderland this time of year, with twinkling lights of Winterfest illuminating the night and fantastic events around every corner. It is the season of magic and dreams, and no city embraces that holiday wonder quite like Gatlinburg.

**Anakeesta** is an ever-changing experience for visitors to the area, bringing winter nights alive in a multitude of different ways. One such example is the **Enchanted Christmas** event running through the end of the year. When the sun sets in the smokies, **Anakeesta** mountain comes to life with a celebration of lights. Gather around the fire with family and friends and enjoy hot cocoa or your favorite hot toddy, then enjoy a stroll through the magical village filled with light displays that is sure to bring winter cheer to even the darkest nights. The mountain of fun also features **Breakfast with Santa**, giving guests that book breakfast early access to **Anakeesta** before other guests arrive, as well as all day access to the park and a delicious breakfast with **Santa** himself, including a sing-along and photo with Saint Nick included!

**Anakeesta** has also teamed up with Candian-basd studio The Moment Factory to bring to life the **Astra Lumina** experience, the first of its kind in the United States. We are always told to reach for the stars, but what if the stars could reach for us? The stars have descended from the night sky, creating celestial pathways of lustrous light, cosmic visions, and astral song. Immerse yourself in the illuminating encounters of lighting, projection, and sound at the **Lumina Night Walk** series. You have never experienced anything like it!

Rounding out the fun and exciting options for your Gatlinburg winter experience are two traditions that are not to be missed. On **December 2**, the streets of downtown Gatlinburg come to life with the **Fantasy of Lights Christmas Parade**. Beginning at 7:30 pm a spectacular parade line-up of balloons, floats and marching bands spans the Parkway. Be sure to get there early and secure your seat because the streets fill fast for this amazing, illuminated parade!

Finally, on **December 31** you can ring in the New Year with the **33rd Annual New Year's Eve Ball Drop and Fireworks Show**. This free, family-friendly celebration is one of the largest New Year's events in the country. A free concert kicks off at 9:15, with former American Idol contestant **Brady Turner** and numerous other performers, all leading up to midnight. At the stroke of midnight, the 400-foot-tall Space Needle is the focal point as the ball drops to ring in 2023. As soon as the clock strikes 12:00, the fireworks begin and partygoers go from celebrating the last night of the year, to the first day of the next. Be sure to get there early, as it is a heavily attended event, and the streets will be packed with fun!

See National Park Map on Previous Page for Trail Locations

## Short Hikes

(Distance is Round Trip)

### Abrams Falls • T-1

• *Distance: 5.0 Miles – Difficulty: Moderate*  
One of the most popular trails in the Smokies, Abrams Falls is in close proximity to Cades Cove. Beginning at the wooden bridge over Abrams Creek, the trail takes hikers along a pleasant and level course. The trail does become steep when you near Arbutus Ridge and climb into a gap in the ridge. The path then leads to Abrams Falls, one of the park's largest falls and a thing of absolute beauty.

### Alum Cave Bluff • T-2

• *Distance: 4.6 Miles – Difficulty: Moderate*  
Alum Cave Bluff is one of the finest short hikes the park has to offer. It includes the natural arching "Arch Rock" and three more amazing sites. First is Huggins Hell, named by settlers who were detoured by the areas rhododendrons and laurel. You will then reach Inspiration Bluff, which has a spectacular view of the Little Pigeon River's upper basin. You finish the trek at Alum Cave Bluff, a massive ledge of black slate high above the trail.

### Andrews Bald • T-3

• *Distance: 3.6 Miles – Difficulty: Moderate*  
This trail follows the upper end of the Forney Ridge Trail, beginning where the paved path to Clingmans Dome Tower leaves the road. The trail ends at Andrews Bald, the highest bald in the Smokies. On a pleasant day the view can be breathtaking, offering an endless landscape of mountains stretching all the way into North Carolina.

### Chimney Tops • T-4

• *Distance: 4.0 Miles – Difficulty: Strenuous*  
This hike is short and very steep. But, don't let the quick ascent detour you from one of the Smokies finest views. Relatively easy for the first mile, you will endure a 600-yard climb to the Chimneys before experiencing a view that rivals any other. This trail is not particularly dangerous, but is not recommended for small children.

### Clingman's Dome Tower • T-5

• *Distance: 1.0 Mile – Difficulty: Easy*  
This trail is a wide, paved course that is moderately accessible with a stroller. Rest

room facilities and benches assist in navigating the path. When you reach the summit, you will be standing on the second highest peak east of the Mississippi River. The tower is reached via a wide ramp, making this trail an immediate favorite amongst families and groups with children.

### Grotto Falls • T-6

• *Distance: 3.0 Miles – Difficulty: Moderate*  
This trail is located off the Roaring Fork Motor Trail and offers the only waterfall that visitors are able to walk behind. Though the trail is primarily traversing a hemlock forest, it is a suitable trek for novice hikers. The distance to the falls is relatively short and the slope is easy to travel. Located close to Gatlinburg, Grotto Falls has long been a tourist favorite.

### Hen Wallow Falls • T-7

• *Distance: 4.4 Miles – Difficulty: Moderate*  
Located in Cosby, Hen Wallow Falls begins almost immediately with a steady climb up Snake Den Mountain. Although rugged, the trail passes through a lush, green forest of rhododendrons and ferns, with hemlocks and pines as a canopy. At roughly 0.7 miles from the trailhead you will pass a social trail that leads right, stay straight. Again at 1 mile you will reach Messer Gap, another side trail, and again stay straight. At 2.1 miles you will reach the short and steep side trail that leads down to the Falls. Check out the small cave just to the right of the falls also.

### Laurel Falls • T-8

• *Distance: 2.6 Miles – Difficulty: Moderate*  
Laurel Falls offers the easiest waterfall access in the Smokies. Following a paved trail, hikers walk through a progression of cascades before arriving at the flat, rocky base of the 60-foot waterfall. This trail is moderately accessible by stroller and offers the perfect spot to sit and take in the beauty of the falls and mystifying sounds of rushing water. Because of this, Laurel Falls is one of the Smokies most visited trails.

### Rainbow Falls • T-9

• *Distance: 5.4 Miles – Difficulty: Moderate*  
Though this trail is a bit challenging, it takes visitors to the highest waterfall in the Smoky Mountains. Beginning at the upper end of Cherokee Orchard, the path takes visitors through a field of boulders, hardwood and

hemlock forests and along a streamside to the base of the 80-foot falls. Though this is one of the more difficult short trails, it is well worth the trip once you reach the falls.

## Day Hikes

(Distance is Round Trip)

### Alum Cave to Mt. Le Conte • T-10

• *Distance: 10.2 Miles – Difficulty: Moderate*  
Many will argue that this trail is the best in the Smokies. The trail is highlighted by Arch Rock, Huggins Hell, Inspiration Point, Alum Cave Bluff, and Le Conte lodge atop the mountain. The trail ranges from fairly level to steep and difficult, offering hikers the opportunity to view countless treasures and breathtaking views. At the top of Mount Le Conte, hikers can view a plethora of scenery standing at 6,593 feet above sea level.

### Charlies Bunion • T-11

• *Distance: 8.0 Miles - Difficulty: Moderate*  
A heavily traveled path, the trail to Charlies Bunion follows the Appala-chian Trail for a majority of your trek. Offering a moderately difficult hike, the trail is relatively easy with more difficult terrain towards the end of the trail. The highlight of this hike is the fine panoramic views that are available at both the beginning and the end of the hike. You can either stand atop Charlies Bunion, offering an easy resting place, or the

Jump-Off. Both give visitors an amazing view that is well worth the walk.

### Gregory Bald • T-12

• *Distance: 11.6 Miles – Difficulty: Strenuous*  
This hike is not an easy one, but those who choose to take it can look forward to one of the finest views in the Smokies. Overlooking the beautiful Cades Cove basin, Gregory Balds also offers a mid-June spectacle of azaleas. This hike is intended for experienced hikers and will often take an average of four hours just to reach the Balds.

### Ramsay Cascades • T-13

• *Distance: 8.0 Miles – Difficulty: Strenuous*  
Ramsay Cascades offers one of the most spectacular waterfalls in the Smoky Mountains, but the trek arriving there can be very difficult to traverse. Though the trail begins as a fairly easy path, it becomes a rocky surface that can become very slick and dangerous when moist. Lying deep within the serene surroundings of the mountains, the trail takes visitors through pristine wilderness to two streams cascading over a ledge and forming an immaculate scene that begs for a picnic lunch. Though this trail offers an amazing destination, make sure that you are up to the trip.

# Historic CADES COVE LOOP

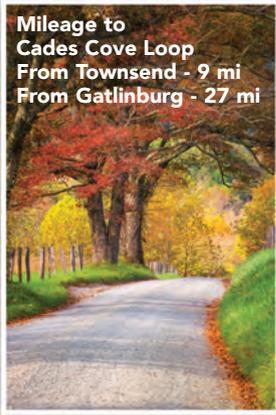

When touring Cades Cove, you will drive along an 11-mile loop that follows many of the curves and courses that settlers forged years ago. Along the way you will likely come upon wildlife, such as the white tail deer, wild turkey, ground hog and an occasional black bear. The Cove takes visitors into another time, experiencing heritage in each building and wilderness around every turn. Though this is a driving trail, you must get out of your car and experience the tranquil beauty of the trails, wildlife and scenery. Below you will find some information on what the Cove has to offer.

Your first stop on the loop is (1) **John Oliver's Place**. The Oliver's settled into Cades Cove in 1826. This home remained in the Oliver family until the Park was established in the late 1920's. Taking a left you can visit the (2) **Primitive Baptist Church**. Early settlers established this church in 1827, with only a log building to serve the community until 1887. During the Civil War, public unrest shut the church down. Back on the loop you will see the (3) **Methodist Church**.

This building and its furnishings were reportedly the work of a single man, J.D. McCampbell. A blacksmith and carpenter, he built the church in 115 days for \$115. He later became a preacher; serving the area's Methodist population and doing away with the use of circuit preachers for this less dominate faith.

Just after Hyatt Lane you will find the (4) **Missionary Baptist Church**. This church was formed in 1839, when members of the Primitive Baptist Church were dismissed for favoring missionary work. This structure dates from 1894, beginning with a membership of 40 and eventually rising to an enrollment of 115. During the Civil War the church failed to meet for services, but reopened following the war minus Confederate sympathizers. To the right you will find (5) **Rich Mountain Road**. Once an Indian trail, this road was built by the state of Tennessee in the 1920's. This 12-mile long trek takes visitors to the park boundary. Here a remarkable view of the cove awaits from the top of the path. (6) **Cooper Road Trail** sits just ahead. This trail once served as a path for wagons, but today it is a 10-mile

hiking trail that ends near the Foothills Parkway.

At the end of a half-mile hiking trail you will find (7) **Elijah Oliver Place**. Surrounded by a smokehouse, barn and springhouse, this home takes visitors back to a different time. The springhouse looks down on the rest of the home, offering a clean water supply and insuring what modest sanitation was available. At the next stop you will find the (8) **Cable Mill Area**. This area features the Cades Cove Visitors Center, the blacksmith shop, cantilever barn, smokehouse, Gregg-Cable house, the corn crib and the John Cable Mill. The mill is still working and visitors can stop in and sample or purchase corn mill and flour as our ancestors once did. This is a must stop for visitors to the Cove. On up the trail you will find (9) **Henry Whitehead Place**. Built in 1898, this log house and surrounding dwellings are an example of the roughest and finest log construction in the Smokies.

**\* The Cades Cove Loop is open from 8:00 am until Sunset.  
No Cars Allowed on Wednesdays from May 5 - August 25**

If you feel like stretching your legs a bit try (10) **Cades Cove Nature Trail**. This half mile loop takes visitors into the woods to experience how a settler's family would forge for necessities. Just ahead on the right you will find (11) **Dan Lawson Place**. Built around 1856, some of the better blade work of the time is represented in this home. Small outbuildings served as family pantries, also used as a granary and smokehouse. You can also stop at (12) **Tipton Place**. "Hamp" Tipton had this home built shortly after the Civil War. The long shed on the opposite side of the house is an apiary or bee gum stand, offering honey as a common confection. As your tour of the cove comes to a close, you will see (13) **Carter Shields Cabin** sitting nestled near the end of the loop. Another example of craftsmanship in the area, this small cottage offers visitors one last opportunity to step out of their lives and into the past.

## Experience **CLINGMANS DOME**

\*Opens April 1st

**Closed During Winter**

At 6,643 feet, Clingmans Dome is the highest point in the Great Smoky Mountains National Park. It is the highest point in Tennessee, and the third highest mountain east of the Mississippi. The observation tower on the summit of Clingmans Dome offers spectacular 360° views of the Smokies and beyond for visitors willing to climb the steep half-mile walk to the tower at the top.

Clouds, precipitation, and cold temperatures are common at Clingmans Dome. Temperatures at the dome can be 10 - 20 degrees cooler than in the surrounding lowlands. The cool, wet conditions on Clingmans Dome's summit make the spruce-fir forest that grows there a coniferous rainforest. Dress in layers and be sure to bring a jacket, even in summer.

Although Clingmans Dome is open year-round, the road leading to it is closed from December 1 through March 31, and whenever weather conditions require. It's seven miles to the end of Clingmans Dome Road and there are scenic pullouts with endless views of ridges and valleys along the way. The road ends in a large parking area from which a 0.5 mile trail leads to the summit. The trail is paved but steep, and leads to an observation tower on top.

Besides the trail to the summit, there are several trails that start on Clingmans Dome Road and parking area. The Appalachian Trail (AT) crosses Clingmans Dome, marking the highest point along its journey from Georgia to Maine. The Forney Ridge Trail leads to Andrews Bald, a high-elevation grassy bald.

To get to Clingmans Dome, take 441 through the Park and turn off .1 miles south of Newfound Gap and follow the 7-mile Clingmans Dome Road to the large parking area at the end.
